ANNUAL MEETING

October 3, 1974, 10:00 a.m. (E.D.S.T.),

The Royal Connaught Hotel, Hamilton, Ontario

To Our Shareholders and Employees

The fiscal year 1974 saw further improvement in the financial performance of Canadian Canners Limited and Subsidiaries. The consolidated sales volume was \$85,348,000 compared with \$73,197,000 in the previous year, which is an increase of 16.6%. The net earnings were \$2,808,000 or \$2.00 per share, compared with \$2,232,000 or \$1.59 per share for the prior year. The return per dollar of sales improved from 3.0¢ for fiscal 1973 to 3.3¢ for fiscal 1974.

During the past fiscal year, the Company paid two quarterly dividends at 10¢ per share and two quarterly dividends at 18¾¢ per share on the Class A shares. Since the date of issue, October 1, 1956, no dividends have been declared on the Class B shares, substantially all of which are owned by Del Monte Corporation. Class A and Class B shareholders are entitled to cumulative dividends at the rate of 75¢ per share per annum. As of June 30, 1974, accumulated but undeclared dividends were \$819,000 on Class A shares and \$12,464,000 on Class B shares.

It is gratifying to be able to report continuing improvement in our operations. The return on shareholders' equity has improved from 7.0% to 8.2%. Improvement of the return on shareholders' equity to a level in excess of 10% is a continuing objective. The economic environment of rapidly rising costs has created the need for a higher level of earnings to supply sufficient funds for the replacement of

equipment, and for additional plant and equipment facilities. Our requirement for capital funds to provide the facilities to sustain our sales growth is increasing significantly. It is essential that our growth in earnings be sustained, and the return on shareholders' equity be further improved.

During fiscal 1974 cost increases and shortages of supplies of various kinds, including raw produce, and long delivery schedules placed considerable strain on operating performance. We encountered substantial increases in all the cost components of our 1973 seasonal packs which resulted in increased selling prices. The combination of selling price increases and the increased sales movement of AYLMER and DEL MONTE products provided the improvement in our earnings.

During the past winter and spring, a number of product line shortages occurred in our industry. These resulted from two years of less than normal packs of these items. While our Company experienced shortages in some products, we were able to maintain and increase our overall total sales volume. Our year-end inventories were below the desirable level for many products, but it is anticipated that the 1974 seasonal packs will correct this position.

The cost of the 1974 seasonal pack of canned fruits and vegetables is expected to be higher than the 1973 cost by an average of 25% to 30%. The prices for raw

product, sugar, and other ingredients, and packaging materials, and interest and wage rates are all at record levels. To achieve our objective of further improving the rate of return on the Company operations, it will be necessary to reflect these cost increases in the selling prices of our 1974 packs.

In looking ahead, the food processing industry will encounter many challenges, amongst which are: compliance with the new Federal Consumer Packaging and Labelling Act and Regulations, conversion to the metric system, meeting changes in technology at the retail store checkout counter, and a problem which is of major concern to the entire business community and all Canadian consumers, the erosion of the value of the dollar through inflation. We believe the food industry can successfully meet these challenges and our Company's view is optimistic for the future of the food processing industry in Canada.

The growth and effectiveness of the operations of our Company are in large measure attributed to the efforts of our employees, and we wish to express our sincere appreciation for their support during the past year.

On behalf of the Board of Directors.

Ross B. Yerby, L. H. Johnston, Chairman President

Hamilton, Ontario, July 25, 1974

Auditor's Report

To the Shareholders of Canadian Canners Limited

We have examined the consolidated statement of financial position of Canadian Canners Limited and its subsidiary companies as at May 31, 1974 and the consolidated statements of earnings and retained earnings and source and use of funds for the year then ended. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion these consolidated financial statements present fairly the financial position of the companies as at May 31, 1974 and the results of their operations and the source and use of their funds for the year then ended, in accordance with generally accepted accounting prinicples applied on a basis consistent with that of the preceding year.

Hamilton, July 25, 1974.

Notes to Financial Statements

¹⁾ At May 31, 1974 Canadian Canners Limited and its subsidiary companies had long-term leases expiring in various years through 1994 covering land, buildings and equipment. The average annual rentals payable under these agreements are estimated at \$602,000 for 1975-76, \$406,000 for 1977-81, \$155,000 for 1982-94.

²⁾ During the fiscal year ended May 31, 1974, the aggregate direct remuneration paid or payable by the Company to twelve directors as directors was \$7,000 (\$5,000 in 1973) and to eight officers as officers (5 of whom were directors) was \$175,000 (\$154,000 in 1973).

³⁾ The holders of Class A common shares are entitled to cumulative cash dividends at the rate of 75¢ per share per annum in priority to any dividends on the Class B common shares. Dividends have been paid on the Class A common shares up to and including September 30, 1968 at the rate of 75¢ per share per annum and subsequently at the rate of 40¢ per share per annum until and including September 30, 1973. The Dividends subsequently paid have been at the rate of 75¢ per share per annum. Subject to the prior rights of the Class A common shares, the holders of Class B common shares are entitled to cash dividends accumulating from the date of issue on October 1, 1956 at the rate of 75¢ per share per annum. To June 30, 1974, the accumulated dividends not declared on Class A common shares amount to \$819,000 and on Class B common shares amount to \$12,464,000. After the Class A and B common shares have received payment of all accumulated dividends, Class A and B common shares share equally in any dividends in excess of 75¢ per share per annum.
